

## SHADE NET

JS AGRO Shade Net is made of knitted poly fabrics which has an ability to protect the crop from UV rays and it improves productivity of the crop. JS AGRO Shade Net is made of 100% pure virgin material which gives additional benefits of protecting the agricultural produce from sunlight, rain, winds, etc. JS AGRO Shade nets are also used for a wide range of other applications as well.

### Specification:

- Width – 1 meter to 6 meters
- Length – 50 meters, 100 meters
- Shade Percentage – 35%, 50%, 75%, 90%
- Colours – Green, Black, White, Green-Black

## BENEFITS

UV stabilized

Keeps away insects and birds from the crop

Protection from natural conditions

Controls the climate

## JS AGRO INDUSTRIES

Sy. No. 92,93/1 & 93/2, Plot No. 51, 2nd Phase, Vasanthanarasapura Industrial Area, Yalladadlu, Kora Hobli, TUMAKURU - 572128

GSTIN: 29AATFJ2315A1ZI

Contact: 9620178555

Email: jsagroindustries23@gmail.com

## APPLICATIONS

Agriculture & Nurseries

Construction

Parking and Flooring

Packaging Industries

Fencing

## JS AGRO MULCH FILM

JS AGRO MULCH FILM acts as a layered protection for crops. The mulch film does not allow any kind of light transfer which results in conserving the moisture content in the soil, controls unwanted weed growth, better root development and reflects the natural light to the fruits and plants.

JS AGRO MULCH FILM assist to increase the quality of flowers and fruits by preventing soil from coming into contact with these plant parts. It also helps in decreasing the water used for irrigation, prevents soil from erosion and improves the soil structure. The raw material used to produce JS AGRO MULCH FILM are of superior quality which offers great benefits and makes it suitable for growing almost every crop.

## BENEFITS

- Stops weed and unwanted plant growth without use of chemicals
- Reduce labour and maintenance costs
- Enhances soil structure
- Regulates the soil temperature
- Improves the quality of the yield

### FEATURES

Prevents Weed Growth

Saves Water

UV Protected

Insect Repellent

Protects the Soil

Durability

Easy Usage

# DRIP IRRIGATION PIPES

*JS AGRO Drip irrigation pipes include both cylindrical and flat pipes that are made of high-quality raw materials, using modern technology. JS AGRO Drip irrigation pipes facilitate to use water efficiently and also helps the crop grow healthier by reducing the water contact with the fruits, flower and stem. The main application of Drip Irrigation pipes is in Agriculture.*

## Specification available in Round Drip Pipe:

- 12 mm Round – 0.65 mm
- 16 mm Round – 0.5 mm, 0.6 mm, 0.7mm, 0.8mm, 0.9mm
- 20 mm Round – 0.75 mm, 1.0 mm

## Specification available in Flat Drip Pipe:

- 12 mm Flat – 0.2 mm, 0.5 mm, 0.6 mm
- 16 mm Flat- 0.2 mm, 0.4 mm, 0.6 mm, 0.75 mm

## BENEFITS

- Delivers water and nutrients directly to the roots*
- Reduces labour and maintenance costs*
- Prevents diseases by minimizing water contact to the upper plant and improves crop yield*
- Water used at optimum level*
- Eliminates the need of energy pumps*

# TUBULAR MESH BAGS

*JS AGRO Tubular Mesh Bags offer extreme softness and excellent protection that meet the requirements for packaging, storage and transportation. JS AGRO Tubular Mesh Bags are used for Fruits and vegetable packaging, online retail packaging. These bags are durable enough for protecting the packaged products from damage and keeping it always fresh.*

## Specification:

- Weight – 5 kg, 6 kg
- Length – 1000 meters, 1200 meters
- Colours – Orange, Red, Natural, Green

## BENEFITS

- The soft fabric helps the packaged products to stay protected.*
- These bags offer proper ventilation and the durability with a soft and natural feel.*
- Looks attractive*
- Can be reprocessed*

## APPLICATIONS

- Fruits & vegetables packaging*
